Funded by the National Institute on Disability, Independent Living and Rehabilitation Research
Institute for Human Centered Design

An international education and design non-profit dedicated to enhancing the experiences of people of all ages and abilities through excellence in design.
AGENDA

1. Overview of the Americans with Disabilities Act

2. Definition of Disability and:
   • Alcohol Addiction
   • Substance Use and Opioid Use Disorders

3. ADA Titles I, II and III:
   • Employment
   • State and Local Governments
   • Public Accommodations
Americans with Disabilities Act

Provides a clear and comprehensive national mandate for the elimination of discrimination against people with disabilities.
Structure of ADA

Title I – Employment
   Key term: reasonable accommodation

Title II – State and local government
   Key term: access to programs, activities and services

Title III – Places of public accommodation
   Key term: access to goods and services
Structure of ADA

Title IV - Telecommunications
Requires access to telephone system via relay.

Title V - Miscellaneous Provisions
ADA

Definition of Disability

1. A physical or mental impairment that *substantially limits* one or more *major life activities*

2. A *record* of such an impairment

3. Being *regarded* as having such an impairment
Definition of Disability
First Part

A person who has

a physical or mental impairment that
substantially limits a *major life activity*
What are Major Life Activities?

Major life activities include, but are not limited to:
## Major Life Activities

### Examples in ADA

<table>
<thead>
<tr>
<th>Activity</th>
<th>Action 1</th>
<th>Action 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Caring for oneself</td>
<td>Walking</td>
<td>Learning</td>
</tr>
<tr>
<td>Performing manual tasks</td>
<td>Standing</td>
<td>Reading</td>
</tr>
<tr>
<td>Seeing</td>
<td>Lifting</td>
<td>Concentrating</td>
</tr>
<tr>
<td>Hearing</td>
<td>Bending</td>
<td>Thinking</td>
</tr>
<tr>
<td>Eating</td>
<td>Speaking</td>
<td>Communicating</td>
</tr>
<tr>
<td>Sleeping</td>
<td>Breathing</td>
<td>Working</td>
</tr>
</tbody>
</table>
## Major Bodily Functions = Major Life Activities

### Examples in ADA

<table>
<thead>
<tr>
<th>Immune System</th>
<th>Neurological</th>
</tr>
</thead>
<tbody>
<tr>
<td>Normal cell growth</td>
<td>Brain</td>
</tr>
<tr>
<td>Digestive</td>
<td>Respiratory, Circulatory</td>
</tr>
<tr>
<td>Bowel</td>
<td>Endocrine</td>
</tr>
<tr>
<td>Bladder</td>
<td>Reproductive</td>
</tr>
</tbody>
</table>
Substantial Limitation

How do you know when a major life activity is substantially limited?

• Compare the major life activity with most people in the general population.
• Should not require extensive analysis.

Congress wants broad coverage.
Scenario

David is chronically absent and late for work. His supervisor warns him about his absenteeism and tardiness.

David responds, “But I can’t get to work because of my drinking.”

Is David substantially limited in the major life activity of working?

Yes, David is substantially limited in the major life activity of working. However, David must meet performance and code of conduct requirements.
Impairments that are episodic or that go into remission are considered disabilities if they substantially limit a major life activity when active.

Examples: bipolar disorder, post-traumatic stress disorder, epilepsy, addiction and cancer.
Scenario

Miguel is addicted to alcohol. He’ll be fine for months but a few times a year he binge drinks and is late for school. The binge drinking usually lasts 2-3 days.

Is he a person with a disability under the ADA?

Yes, his impairment substantially limits a major life activity of learning.
Definition of Disability
Second Part

Has a **history** of an impairment that substantially limits a major life activity

e.g. cancer
**Scenario**

Marianna has been cocaine-free for eight years. She applies for a job that she is qualified to do. The employer refuses to hire her because he knows about her addiction.

Is she protected under the ADA?

Yes, Marianna is protected under the ADA because she has a history of an impairment (addiction to cocaine), and has refrained from the use of illegal drugs.
Definition of Disability
Third Part

Being *regarded as* having an impairment
Scenario

Isabella’s manger hears a rumor that she is addicted to alcohol, and reassigns her to a less stressful job with lower pay because of concerns that she would get stressed out and return to drinking.

Is she protected under the "regarded as" part of the definition?

Yes, she is being regarded as having a disability, and has been negatively affected.
Scenario

Julie has been in recovery for 5 yrs. from addiction to OxyContin. She is in medically assisted treatment (MAT).

She works in the office at a day care center. Her boss learns about her former addiction & tells her to “get off” methadone or you’ll be fired.

Is Julie protected under the ADA?

Yes, Julie is being regarded as a current user of drugs because of her medical treatment.
Mitigating Measures

- For civil rights protection, mitigating measures are not considered when deciding if an impairment substantially limits a major life activity.
- Mitigating measures: medication, prosthetics, mobility devices and hearing aids, etc.
Scenario

Tom is in medically assisted treatment. He appeared in family court and requested that he begin to see his kids on the weekends. The judge responded to his request saying, “You’ll see your kids when you get off Suboxone”.

Is Tom protected under the ADA?
Tom Hits the ADA Jackpot!

1. **Yes, Tom has a history of disability:** MAT participants usually have a history of addiction to controlled substances. ([Controlled Substances Act](https://www.deadlinejournal.com/2020/06/15/the-subsides/))

2. **Regarded as:** Family court is treating the use of Suboxone as a drug that substantially limits a major life activity, or they believe Suboxone is an illegal drug.

3. **Mitigating measure:** Suboxone when taken as prescribed is a mitigating measure for people in recovery in a MAT.
The ADA makes a distinction between alcohol addiction and the illegal use of drugs.
Alcohol addiction generally is a “disability” regardless of whether it is in the present or in the past.
Substance Use Disorder

The ADA protects a person in recovery who is no longer engaging in the current illegal use of drugs.
In Recovery Means:

(1) is in recovery from substance use disorder

(2) has ceased engaging in the illegal use of drugs

(3) is either participating in a supervised rehabilitation program or

(4) has been successfully rehabilitated
What Does “Illegal Use of Drugs” Mean?

- Use of Illegal drugs such as heroin or cocaine.
- Use of controlled substances:
  - **BUT** person has no prescription
  - **OR** has a fraudulent prescription

*Note: the ADA looks to the Controlled Substances Act*
What Does “Current” Mean?

Current illegal use of drugs means:

• “Illegal use occurred recently enough to justify a reasonable belief that a person’s drug use is a real and ongoing problem.”

Under the ADA, current drug use is decided on a case-by-case basis.
Remember Julie?

What if Julie’s employer found out that she recently used cocaine while in MAT?

Would she have rights under the ADA?
No, The ADA does not protect individuals who are “currently engaging in the illegal use of drugs.”
What if Julie’s employer found out that she recently used marijuana while in MAT?

Would she have rights under the ADA?
No. Under federal law, marijuana is illegal even if it is used with a medical prescription.
Marijuana in all its forms is illegal under federal law

* However, check state law
Medical Marijuana and State Law

• Medical Marijuana is legal under some state’s law.
• Employers may need to consider reasonable accommodations for offsite use of medical marijuana under state law.

*An employee who shows up high to work has NO protections under either federal or state law.
Legal Use of a Prescribed Medication

Jennifer became addicted to Percocet while taking the medication in a prescribed manner and in prescribed amounts.

Is she protected under the ADA?
Yes, she is protected under the ADA because she is legally using drugs.

*But, if she takes more than prescribed, she may not be covered.
ADA Employment

Applies to private employers with 15 or more employees and all state and local government employers.

Applies to all aspects of employment: job application, job training

... and other terms or conditions and privileges of employment.
Key Term

Reasonable Accommodation

- a change in the way any aspect of the employment process usually happens

- Changes/modification to:
  - hiring
  - work environment
  - company policies
  - other benefits of employment
She becomes addicted to Percocet and wants to take a leave of absence from her job to taper off the drug.

Does she have rights under the ADA?

Yes, she is a person with a disability and may have rights to an accommodation. She needs to discuss the possibility of an accommodation with her boss.
Making the Request

• Usually the person with the disability makes the request for a reasonable accommodation.

• The employee and employer work together to identify an appropriate accommodation - this is an informal interactive process.

• The accommodation must be effective, not necessarily the one the person requested.
Alcohol, Drug Tests and the ADA

• Can an employer test for:
  - Alcohol & prescription drugs?
  - Illegal use of drugs?

  It Depends.... Sometimes....

**Also, check state law**
• Testing is considered a medical exam
• Results could uncover disability related information

SO....

Can only test in 2 situations:
- After a job offer has been made but before starting
- Business necessity based on credible evidence
Testing for Illegal Drug Use and the ADA

• Is not a medical exam
• Current illegal use of drugs is **NOT** covered by ADA

So...

Can test anytime as part of:
- Application process, post-offer medical exams

For drug testing employees, we suggest:
- Business necessity based on credible evidence
- Safety sensitive jobs
Recap

Alcohol/Prescriptions

- **IS** a medical exam

  - Can test in 2 situations:
    - After a job offer has been made but before starting
    - For business necessity based on credible evidence

Illegal Drugs

- **Not** a medical exam

  - Can test anytime:
    - Application process, post-offer, medical exam

  - For employees suggest:
    - Business necessity based on credible evidence and safety
Title II State and Local Governments

People with disabilities must be able to participate in and benefit from all state and local government programs, services & activities.

- Courts
- Law enforcement
- Public education
- Transportation

- Recreation
- Health care
- Social services
- Voting
General Nondiscrimination Requirements

• Ensure an equal opportunity to participate and benefit.

• Prohibit exclusion, segregation, and unequal treatment.

• Prohibit eligibility criteria that screen out persons with disability unless criteria are necessary.
General Nondiscrimination
Reasonable Modifications

When necessary to ensure equal opportunity to participate, “reasonable modifications” must be made to policies, practices, procedures.
Scenario

A state has a policy that people who enter the correctional system in MAT are taken off their medications.

Does this policy violate the ADA?
Title II State and Local Governments

• Yes, generally correctional systems have an obligation to provide legally prescribed medications to people entering with a prescription when the correctional facility has a medication dispensary program.

• Then, an MAT should be treated like medication for diabetes or cancer.
Title III Public Accommodations

ADA requires places of public accommodations to provide an equal opportunity to people with disabilities.

- Pharmacies
- Insurance offices
- Restaurants
- Movie theaters
- Private schools

- Hospitals
- Health care
- Social services
- Day care centers
- Hotels
General Nondiscrimination Requirements

• Ensure an equal opportunity to participate and benefit.

• Prohibit exclusion, segregation, and unequal treatment.

• Prohibit eligibility criteria that screen out persons with disability unless criteria are necessary.
When necessary to ensure equal opportunity to participate, “reasonable modifications” must be made to policies, practices, procedures.
Scenario

Some nursing homes are refusing admission to patients being treated for opioid addiction.

Recently, the Department of Justice (DOJ) successfully sued a nursing home that was in violation of the ADA for not accepting a patient in MAT.
How to File an ADA Complaint

• **Title I: Employment:** US Equal Employment Opportunity Commission (EEOC)
  https://www.eeoc.gov/employees/howtofile.cfm
  1-800-669-4000

• **Title II and III: State and Local Governments and Public Accommodations:** Department of Justice
